

# Product Portfolio Policy & Supplier Catalog

Internal reference document | Last updated: January 2025

## Purpose

This document defines the policy for how PrimePack AG manages and communicates sustainability information for its packaging portfolio. It covers:

- Which evidence levels are acceptable for customer-facing claims
- Which products are and are not in our active portfolio
- Open compliance action items by supplier

For the full product list with EPD availability and evidence levels, see *product\_overview.xlsx*.

## Evidence Level Definitions

Level	Meaning
A (Verifid)	Third-party verified EPD (ISO 14044 / ISO 14025) or equivalent certification
B (Supported)	Self-declared claim with supporting calculation and disclosed methodology
C (Claimed)	Supplier assertion; no methodology or evidence provided
D (Missing)	No sustainability data available

## Portfolio Scope

PrimePack AG currently offers three product categories: **pallets**, **cardboard boxes**, and **tape**. All active products and their suppliers are listed in *product\_overview.xlsx*.

## Products NOT in Our Portfolio

The following product types are **not** currently offered by PrimePack AG:

- Any product from a supplier not listed in `product\_overview.xlsx`
- Single-use bubble wrap or foam packaging
- Biodegradable tape products
- Compostable packaging of any kind

# Customer Communication Rules

- **Level A evidence:** May be cited directly as verified fact, with source document named.
- **Level B/C evidence:** Must be presented as a supplier claim, not a verified fact.
- **Level D (missing data):** Must be flagged explicitly. Do not estimate or extrapolate.
- **Conflicting sources:** If two documents give different figures for the same product, flag the conflict, state both values, and prefer the more recent third-party verified source.
- **PFAS declarations:** Currently outstanding for all tape suppliers (see action items). Do not make PFAS-free claims until declarations are received.

## Open Action Items (January 2025)

- Receive PFAS declarations from all tape suppliers
- Receive FSC certificate from CPR System for product 32-101
- Follow up on EPD commitment from Tesa for 50-102
- Follow up on Relicyc EPD for LogyLight (32-104)
- Obtain EPD commitment from CPR System for 32-101 and 32-102
